ACRYLIC WAX APPLICATIONS

WASTE  
LESS.  
CARE  
MORE.

Tired of the mess, hassle and hazards associated with stripping, waxing and buffing floors?

Looking for a safer, low-maintenance, environmentally-friendly alternative to your current floor maintenance program?

## WHY CHOOSE UD1000?

- No buffing - *less labor and no more airborne dust*
- No stripping - *less mess, less waste and less downtime*
- Ultra-hard, microscopic particles provide maximum durability
- Extreme scratch and wear resistance
- Satin or matte sheen shows less imperfections in floors
- Easy application and repair
- Fewer recoats - *less chemical usage and additional downtime*
- Less risk of slips and falls - *SCOF > 0.90*
- Increased sustainability for a better environment
- Better indoor air quality
- Easy to clean
- Retains consistent sheen over many months or even years
- Lower total cost of ownership
